- Visual Studio

APTITUDES

- Teamwork
- Leading Skills
- Creativity
- Problem Abstraction
- Organized

VOLUNTEERS

Social Service, Escuela la Aurora, La Calera

MARCH 2019 - NOVEMBER 2019

- Algebra & English teacher.
- Construction experience.
- Building reparation.

PROFESSIONAL PROFILE

I am a multidisciplinary design student with a solid foundation in full-stack development and experience in both frontend and backend technologies. Strong background in UX/UI principles and interactive design. Adept at building digital solutions from concept to deployment, with a passion for delivering clean, functional, and user-centered interfaces. Actively seeking opportunities to grow in both creative and technical dimensions, while contributing to innovative projects.

EDUCATION

System & Computing Engineering Bachelor Degree, Universidad de Los Andes, Bogotá

JANUARY 2021 - PRESENT

Design Bachelor Degree, Universidad de Los Andes, Bogotá

JANUARY 2025 - PRESENT

High School Diploma, Cambridge International School, La Calera

FEBRUARY 2015 - NOVEMBER 2020

- Best International Bachelor, PROM 2020

EXPERIENCE

Escape from Chernobyl

JANUARY 2021 - MAY 2021

- Development of a videogame in C# using Unity as the graphic engine.
- Use and development of assets for the game elements and environments.

Licorímetro

JANUARY 2023 - MAY 2023

- Development of a mobile app focused on the recognition of alcoholic beverages by using OCR tech and the creation of a social network centered on the user's experiences of those beverages.
- Design of an optimization and efficiency focused architecture using OOP.
- Prototype construction of the mobile app through FIGMA to achieve an user friendly interface.
- Development of a Beta version of the final app on Android Studio by implementing tech such as Firebase, OCR and some APIs.

Web Portfolio Project

JUNE 2025 - JUNE 2025

- Designed and developed a personal portfolio site showcasing projects and design philosophy.
- Implemented with React, Tailwind, and 3D components. Emphasized responsive design and accessibility.
- Demonstrates integration of UX/UI principles with functional full-stack coding practices.
