PROFESSIONAL PROFILE

I am a multidisciplinary design student with a solid foundation in full-stack development and experience in both frontend and backend technologies. I have strong knowledge of UX/UI principles and interactive design. I specialize in building digital solutions from concept to deployment, with a passion for creating clean, functional, user-centered interfaces. I actively seek opportunities to grow in both creative and technical dimensions while contributing to innovative projects.

EDUCATION

Universidad de los Andes, Bogotá   **Jan 2021 – Present**
Bachelor's Degree in Systems and Computer Engineering
Bachelor's Degree in Design

Cambridge International School, La Calera   **Feb 2015 – Dec 2020**
High School Diploma. Top International Baccalaureate Graduate, Class of 2020

PROFESSIONAL EXPERIENCE

Latam CoderAI Trainer (LLM & code review), Outlier   **Jun 2025 – Present**
- AI training by reviewing and correcting generated code responses.
- Developed 2D/3D animations and scenes using Python and JavaScript (Pygame, p5.js, WEBGL).
